PERMIT EPE-22

IN THE MATTER OF section 119.03 of Division II of Part VI of the *National Energy Board Act*, and

IN THE MATTER OF an application by Ontario Hydro for authorization to export electricity, filed with the National Energy Board ("the Board") under File No: 6200-0001-4.

B E F O R E the Board on Wednesday, 24 April 1991.

WHEREAS in Part 2 of an application dated 10 October 1990, Ontario Hydro has requested an authorization to export unscheduled circulating power and energy at points on the international boundary between Canada and the United States of America;

AND WHEREAS Ontario Hydro on 1 December 1990 published in the Canada Gazette a notice of its application;

AND WHEREAS the Board has considered any comments on or objection to Part 2 of the application;

AND WHEREAS the Board has determined that the effect of the exports on provinces other than Ontario would be insignificant;

AND WHEREAS the Board has determined that the impact of the exports on the environment, including the social effects directly related thereto, would be insignificant or mitigable with known technology and that the public concern expressed about the exports does not warrant a public review;

IT IS ORDERED THAT Ontario Hydro be and is hereby authorized to export power and energy at points on the international boundary between Canada and the United States of America, subject to the following terms and conditions:

1. The term of this permit shall commence on 1 January 1996 and shall end on 31 December 2025.
2. The class of transfer authorized hereunder shall be the transfer of unscheduled circulating power and energy for simultaneous return to Canada.
3. The power and energy to be exported hereunder shall be transmitted over any international power line for which the Board has issued a certificate of public convenience and necessity.

4. The quantity of energy that may be exported hereunder shall not exceed 10 000 GW.h in any consecutive 12-month period.
5. The generation of energy to be exported hereunder shall not contravene relevant federal environmental standards or guidelines.
