## Transmitter Selection Framework – November 22, 2023

### Feedback Provided by:

Name: Julien Wu

Title: Director, Regulatory Affairs

Organization: Evolgen by Brookfield Renewable

Email: [REDACTED]

Date: Dec 15, 2023

Following the November 22, 2023 Transmitter Selection Framework (TSF) engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed during the webinar. The webinar presentation and recording can be accessed from the [engagement web page](#).

**Please submit feedback to [engagement@ieso.ca](mailto:engagement@ieso.ca) by **December 15, 2023**.** If you wish to provide confidential feedback, please submit as a separate document, marked "Confidential". Otherwise, to promote transparency, feedback that is not marked "Confidential" will be posted on the engagement webpage.

| Topic   | Feedback  |
|---|---|
| <p>Does the proposed engagement plan to support the IESO’s work on the Transmitter Selection Framework appear sufficient and reasonable to enable your participation? Do you have any specific feedback that the IESO should consider when undertaking engagements to support development of the TSF?</p> | <p>Evolugen by Brookfield Renewable appreciates the opportunity to provide comments.</p> <p>We generally support the selection framework’s engagement plan, and would be interested in participating in the public consultation sessions as well as the proposed focused working group. We recommend that the IESO allow any industry stakeholders to attend, if not as active members then as observers, in all Proposed Focused Working Group sessions as well as all Outreach and Engagement with Indigenous communities and municipalities. It is understandable that certain meetings might only target specific communities and interest groups, and that in-camera sessions might be necessary to foster open communication. However, industry involvement from developers and/or investors would be key for the transmitter selection framework to produce competitive outcome. We ask that industry be involved as early and as much as possible to help enable information sharing and help design the ideal framework.</p> |

|---|---|
| <p>Are you interested in participating in the Focused Working Group, and/or do you have other suggestions for facilitating stakeholder and community input in a focused manner?</p> | <p>Yes. Brookfield family companies actively develop and own transmission assets across the world. We hope to contribute our experience to this stakeholdering process.</p> |
