

Member Vote and Rationale – Improve Awareness of System Operating Conditions

IESO Technical Panel, May 17, 2022

The vote to recommend the proposed market rule amendments (MR-00470-R00) for consideration to the IESO Board of Directors passed unanimously at the May 17, 2022 Technical Panel meeting.

MR-00470 – Improving Awareness of System Operating Conditions

TP Member	Vote and/or Rationale
Nick Papanicolaou (Consumer)	Yes
Indra Maharjan (Consumer)	Yes
Forrest Pengra (Residential Consumer)	Yes
Emma Coyle (Generator)	Yes
Jason Chee-Aloy (Renewable Generators)	Yes

TP Member	Vote and/or Rationale
Jennifer Jayapalan (Energy Storage)	Yes - I recommended the proposed amendments as they should add further transparency and improve awareness of system operating conditions to all market participants, providing better opportunity for participants to plan and react accordingly.
Vlad Urukov (Generator)	Yes
Robert Reinmuller (Transmitters)	Yes - I support approval to send to the Board. The IESO has made some clarifications to the use and conditions that trigger the alerts.
Rob Coulbeck (Retailers or Wholesalers)	Yes
Dave Forsyth (Consumer)	Yes
Ron Collins (Energy Related Businesses and Services)	Yes
Sarah Griffiths (Demand Response)	Yes
Joe Saunders (Distributor)	Yes
David Short (IESO)	Yes
