Subject: RE: Sent on behalf of Nik Schruder: Mid-term Review Draft Final Report, comments due Feb. 13th

Hi Nik,

Hope all is well.

I just wanted to understand if solar PV is still expected to be included in the upcoming Conservation programs going ahead?

Thanks,
Wes

Subject: Sent on behalf of Nik Schruder: Mid-term Review Draft Final Report, comments due Feb. 13th

Good afternoon,

Just a reminder that the last opportunity for written comments on the Mid-term Review Draft Final Report is by February 13th, 2018 (from Advisory Group Members and public). I encourage all of you to submit written comments for IESO's consideration if you have not already done so. All materials including the draft final report with appendices are now posted to the [Conservation Framework: Mid-Term Review engagement webpage](#) for your review.

As part of the IESO's engagement process, all written feedback is to be sent to our stakeholder engagement group (engagement@ieso.ca) and will be posted on the engagement webpage to ensure all comments and subsequent changes are managed in a transparent way. Following consideration of all comments, the IESO will post a response to comments received on the Mid-term Review webpage.

Just a reminder, we have our final Mid-Term Advisory Group meeting scheduled for Thursday, March 8th (9 - 1pm) to review and discuss stakeholder feedback on the Draft Final Report and close off any action items from engagement process.

Kind regards,

Kathi Whiston on behalf of Nik Schruder
