Subject: Industrial Accelerator Program Design Enhancements

The Industrial Accelerator Program (IAP) was recently extended by the Minister of Energy to December 31, 2020 to give customers continued opportunity for energy savings as Ontario works towards achieving the province's long-term energy targets.

The IESO has taken this opportunity to introduce enhancements to the design of the IAP and has launched a stakeholder engagement initiative to seek input to identify any challenges or opportunities to implement these changes by June 24, 2015. The enhancements are intended to address stakeholder feedback to improve the customer experience in the program and to streamline administration to encourage greater participation from eligible customers.

A webinar has been scheduled for Friday, March 27 from 9:00 am to 10:00 am to present the proposed enhancements for the IAP and to invite input from stakeholders.

To register to participate in the webinar email stakeholder.engagement@ieso.ca. Materials will be provided in advance of the meeting.

Further details on this stakeholder engagement initiative can be found on the IESO website at www.ieso.ca/Pages/Participate/Stakeholder-Engagement/Industrial-Accelerator-Program-Design-Enhancements.aspx.

Thank you – Susan
