Subject: Market Renewal ICA engagement update
Attachments: Feedback_template - ICA Options Phase Meeting_6 (Mar 7 2018).docx

Thanks for your participation in the Market Renewal ICA engagement initiative. Following the good discussions at the March 7 meeting, we have revised the [feedback template](#) to add sections that would capture additional feedback on the design elements and associated preliminary decisions for the Length of Forward Period, Commitment Period and Multi-year Commitment Periods. Additionally, a section has been added on the new Availability feature in the multi-year commitment period design element.

Because of these new sections, the deadline for feedback has now been extended to April 13.

Thanks – Rob
