

Market Renewal Next Steps

Ryan King
IESO

December 19, 2016

Feedback

- Stakeholder feedback essential to inform the benefits case analysis, in particular on:
 - Benefits case methodology
 - Application of the methodology to derive benefits and costs
 - The initial assessment of the costs and benefits of Market Renewal
- Please provide any feedback by **January 13** to engagement@ieso.ca

Benefits Case: Engagement Opportunities

- Many ways to participate in this initiative
 - Regular stakeholder engagement sessions
 - Market Renewal WG meetings
 - Market Education Workshops
 - Stakeholder Advisory Committee
 - Individual meetings
- How else can the IESO should be engaging with stakeholders?

Benefits Case: Stakeholder Schedule

- Feedback due January 13
- January 20: Market Renewal Working Group
- February 1: Present Benefits Case Update to SAC
- February 9: Market Renewal SE Meeting
 - Responding to feedback
- Further meetings in February and March to work together with stakeholders to finalize Benefits Case
 - Targeting final benefits case end of March 2017

Market Renewal: Education Workshops

- To prepare stakeholders for the upcoming engagements on the various initiatives in 2017, the IESO and representatives from Navigant will be hosting a series of 'Market Education Workshops'
 - Objective is to provide stakeholders with an opportunity to better understand each market design change element
 - Sessions will be informative and educational and are not outlining design choices
 - Open to all but not intended for stakeholders already familiar with these concepts
 - Sessions will be accessible via webinar as well but in person strongly recommended

Market Education Workshops

Issue Area	Description	Date
Market Design Overview	Overview of the market structures being considered in the market renewal process and how they will work together	January 11, 2017
Single Schedule Workshop	Describes how a single schedule system operates; compares and contrast with two-schedule system	January 25, 2017
Capacity Market	Describes the function, objective and key features of a capacity market	February 8, 2017
Day-Ahead Market	Describes the function, objective and key features of a Day-Ahead Market	February 15, 2017
Real-Time Unit Commitment	Describes how an enhanced intra-day unit commitment design can improve price signals and efficiency	February 22, 2017

Stakeholdering Market Renewal

- The IESO recognizes that working through the design of the different initiatives will require significant engagement across the sector
- We are in the process of putting together a draft framework for the engagement going forward. We will have a discussion with the MRWG in January on this issue.
 - Ways to ensure effective communication with stakeholders
 - Role and composition of MRWG
 - Need for additional engagement forums?

Next Steps

- Benefits Case feedback due January 13, 2017
- Please contact engagement@ieso.ca to participate in upcoming Market Education Workshops and SE meetings

Happy Holidays!
