Subject: 5% Reduction for P4P

Hi Tom

Good session this morning.

Some of the questions that we have are as follows:

1. Regarding the 5% energy savings (averaged across the participating buildings). Is this requirement to be met in the first year, by the second year or by the 4th year?
2. Participation in DR programs. Are the sites contracted in the P4P program excluded from any DR initiatives offered by Program Aggregators and funded by the IESO?
3. Some of the facilities are class A sites, and we wanted to confirm that DR efforts in minimizing the 5 coincident peak hours are allowed to continue.

Thanks in advance...
