Subject: Transmission Rights Market Review - Phase I Revised Implementation Proposal
Attachments: IESO Response to Stakeholder Feedback SE-110 Final.pdf; Phase 1 – Revised Implementation Recommendations.pdf

Thank you for your comments on the implementation recommendations in Phase I of the Transmission Rights Market Review as presented at the May 6 stakeholder meeting. Attached please find the IESO's response to stakeholder feedback along with a Revised Implementation Proposal which considers and addresses stakeholder Feedback. These documents (along with the stakeholder feedback) will be posted shortly to the Transmission Rights Market Review stakeholder engagement webpage at <http://ieso.ca/Pages/Participate/Stakeholder-Engagement/SE-110.aspx>.

Please email stakeholder.engagement@ieso.ca by Monday, June 23 if you have any questions.

As a next step, the IESO will post the proposed market manual changes to support the revised implementation plan through the IESO's Interim Market Document Change (IMDC) process which provides stakeholders with an opportunity to provide comments on the proposed changes to the appropriate market manuals. Notification will be sent to the Transmission Rights Market Review stakeholder participants once the IMDC is introduced.

Thank you and regards,
Susan Harrison
