Subject: IESO to Implement a New Meter Data Distribution (MDD) Solution

The IESO has been working closely with market participants on a number of application upgrades. One of these projects has been to replace the MV-Web application, where customers have access to their revenue meter data. The IESO has been working with stakeholders since September of 2013 and this project is in the final stages in advance of rolling out a new Meter Data Distribution (MDD) solution to all IESO market participants.

The new MDD solution will provide customers with a more reliable and consistent product using the new IESO Reports Site and Online IESO. Market participants will have the opportunity to manage their Meter Data Report Profile, and request and retrieve their Revenue Meter Data Reports in a clear and consistent manner.

Information about the stakeholder engagement efforts and development of the MDD solution can be found at <http://www.ieso.ca/Pages/Participate/Stakeholder-Engagement/SE-113.aspx>.

What's New?

Moving away from the MV-Web application, the IESO will publish the following Revenue Meter Data Reports as confidential reports on the new IESO Reports Site:

- Monthly LDC AQEW AQEI
- Validated Meter Data (VMD)
- Totalized Meter Data With Losses (TMD-WL)
- Totalized Meter Data Without Losses (TMD-WOL)

In addition, an organization will be able to request Ad-Hoc Revenue Meter Data Reports (MD-AD-HOC) for historical data.

Organizations can use Person or Machine Accounts to retrieve their Revenue Meter Data Reports. Revenue Meter Data Reports will be compressed in ZIP format, containing one or more files in EDI format.

How Do I Find Out More?

Market participants are invited to learn more about the new MDD solution and participate in the market trials. A webinar to demonstrate the MDD solution, answer questions, and prepare for the market trials will be held on April 8 at 1:30 pm. The market trials are scheduled from April 13 to May 8.

The IESO will provide more information about this change, including file specifications and training guides in the coming months.

What Do I Need To Do?

To register for the market trials send an email to stakeholder.engagement@ieso.ca before **March 20, 2015**. Persons registering to participate in the market trials will be contacted to provide additional information in preparation for the market trials.

To register for the webinar send an email to stakeholder.engagement@ieso.ca. The IESO recommends that all persons and organizations participating in the market trials also register for the webinar.

Regards,
IESO Stakeholder Engagement
