Subject: Province-Wide Whole Home Pilot Program

The IESO would like to thank those who participated in the Province-Wide Whole Home Pilot Program Stakeholder Engagement. Please note that the engagement is now complete. During the engagement, the IESO sought feedback from stakeholders on the opportunities and the challenges of the draft program design. Participating stakeholders provided valuable insights and recommendations on the draft design and were supportive overall of the IESO's efforts.

Stakeholder feedback had an impact on the final program design, including the following enhancements:

- expansion of the pilot program measure list;
- sharing of customer participation levels with LDCs; and
- creation of a mechanism for LDCs to spend their Conservation First Framework budget on marketing the pilot program.

The IESO and the gas utilities are working to finalize the details of program implementation. Future communications will be provided through the IESO Bulletin and are anticipated to include updates on program launch dates and enrollment information. To subscribe to the IESO Bulletin, please email customer.relations@ieso.ca.

Regards – Emily Somerville
