PART 3 – EXPLANATION FOR PROPOSED AMENDMENT

Provide a brief description of the following:

- The reason for the proposed amendment and the impact on the *IESO-administered markets* if the amendment is not made.
- Alternative solutions considered.
- The proposed amendment, how the amendment addresses the above reason and impact of the proposed amendment on the *IESO-administered markets*.

Summary

The IESO proposes to amend the market rules by introducing a general conduct rule to support the well-functioning of the IESO-administered markets.

Specifically, the amendments states:

Market participants and the IESO, shall not directly or indirectly engage or attempt to engage in conduct, alone or with another person, that they know, or ought reasonably to know,

- exploits the IESO-administered markets, including by, without limitation, exploiting any gap or defect in the market rules;
- circumvents any of the market rules;
- manipulates any of the IESO-administered markets, including by, without limitation, manipulating the determination of a settlement amount;
- undermines through any means the ability of the IESO to carry out its powers, duties or functions under the *Electricity Act, 1998* or the market rules; or
- interferes with the determination of a market price or dispatch outcome by competitive market forces.

This proposal is based on stakeholder consultation as part of SE-112: General Conduct Rule.

Further information on SE-112 can be found on the IESO's website at:

[IESO General Conduct Rule \(SE-112\)](#)

Background

Please refer to MR-00407-Q00.

Discussion

The proposed rule makes additions to Chapter 1, section 10A (new) and Chapter 3, sections 6.2B.19 (new) and 6.2B.20 (new). The proposed additions are found in Part 4 below. Changes made to the rule amendment proposal, IESOTP 278-5b (May 5, 2014), are highlighted in yellow.

Prospective Effect of the GCR:

Rather than add a proposed section in the market rules that the GCR cannot be applied retroactively prior to its effective date, the IESO will follow its current practice which explicitly states the effective date in the published version of any market rule amendment
