**To:** IESO Engagement  
**Subject:** Final Comments Invited on Toronto's IRRP

The IESO invites comments on the proposed recommendations to meet Toronto's electricity needs over the next 20-year planning period. The proposed recommendations outlined in the [attached document](#) will form part of Toronto's Integrated Regional Resource Plan (IRRP). Feedback on the proposed recommendations is due by July 25 and can be sent to [engagement@ieso.ca](mailto:engagement@ieso.ca).

Following discussions at the May 22 community engagement meeting, planning assessments have confirmed that recent investments in the electricity system have had a positive impact on Toronto's electricity needs for the next 10 years and that now is the time to start a dialogue on how to address the longer term needs. As a result, the proposed recommendations outline the need to:

1. Continue with implementation of the previous IRRPs
2. Maintain reliability by replacing end-of-life transmission assets
3. Maintain adequate supply capacity by planning to address emerging needs in the longer term period

More details can be found on the [IRRP – Toronto engagement webpage](#) including the [presentation material](#), [recorded webinar](#) and [meeting notes](#) from the May 22 community meeting which outlined the details leading up to the proposed recommendations.

Your feedback will help to inform ongoing discussions and future planning for the Toronto region. Questions to consider include:

- What additional information needs to be considered in these recommendations?
- Understanding Toronto's longer-term electricity supply needs (see [May 22 presentation](#)):
  - What information is required to prepare for discussions related to longer-term electricity supply options for the next IRRP process?
  - What other considerations should be taken to meet Toronto's future electricity needs?
- How can the IRRP Working Group (including the IESO, Toronto Hydro, Hydro One) continue to engage with the community as these recommendations are implemented, or to help prepare for the next planning cycle?

Please reply to [engagement@ieso.ca](mailto:engagement@ieso.ca) with your feedback or if you have any questions about these proposed recommendations. Please note that should the need arise, the IESO will organize a webinar (next week) to discuss the [proposed recommendations](#) and answer any additional questions.

Thank you for your interest in the development of the 2019 IRRP for Toronto.

Regards,  
Susan Harrison
