

Memorandum

IESO BUSINESS UPDATE

To: Stakeholder Advisory Committee

From: Michael Lyle, VP, Planning, Law and Aboriginal Relations
Terry Young, VP, Conservation and Corporate Relations

Date: May 5, 2016

Subject: IESO Business Update – Regional Planning Engagement

Information Item

Since the last SAC update, work has continued on the development of eight new Integrated Regional Resource Plans (IRRP) that will be released from summer 2016 to winter 2017. Also, the results of the transmitter needs screening processes for the third group of regions are starting to come in from transmitters and will be shared with communities and stakeholders once finalized. The results of the needs screening determines whether additional regional planning activities need to be undertaken in the area. The results of the needs screening are shared with the individuals who have subscribed with the IESO to receive updates on a particular planning region.

Each of the ten Local Advisory Committees (LACs) is meeting throughout the spring to continue their work in developing or implementing the IRRP. All general LAC meetings are open to the public and meeting information is posted on the individual engagement pages for each of the LACs. Interested parties are able to subscribe to receive updates for each of the 21 regional planning areas, which includes notifications of meetings, progression in the planning process, and posting of resources to the website.

Below is a list of the most recent and upcoming LAC meetings as well as links to the information being shared and discussed with the LAC.

Spring 2016 LAC Meeting Schedule

Regional Plan Area	LAC Meeting Date	Webpage Link
Northwest Ontario – West of Thunder Bay	April 19 (First Nations LAC) April 20 (general LAC)	http://www.ieso.ca/Pages/Participate/Regional-Planning/Northwest-Ontario/West-of-Thunder-Bay.aspx
