

Baseline Updates

Revenue Metering Standing Committee & Metering Service Providers Users Group

December 12, 2018

Baseline Updates:

- No Load Loss Enhancement for Disconnected Power Component
- Wholesale Revenue Metering Standard – Hardware Update
- Form Automation project

Baseline Update Status:

- No Load Loss Enhancement for Disconnected Power Component
 - Intended to offset energy incurred in losses when a transformer has been disconnected from the grid.
 - Targeted to update *Market Manual 3.7* before the end of year
 - New sections 2.3.4.3 and Appendix I added to the manual
 - *Market Manual 3.7* redline posted on Nov 8 to Nov 22 for review
 - No comments received
 - Final version was posted on Dec 05 2018

Baseline Update Status:

- Wholesale Revenue Metering Standard – Hardware Update
 - Intended to update document for clarity and to better organize the content
 - Requirements are expected to be largely unchanged
 - Initially targeted to update the Hardware Standard before the end of year but has since been postponed
 - New target: **June 2019**

Baseline Update Status:

- Form Automation project
 - Intended to automate paper-based forms (*1300, 1299, 1304*)
 - Proposed project delivery: end of Q2 2019
 - Targeting to update all affected manuals (*MM 3.2, 3.8*) in parallel
