

Category	Priority		Item	Comments
Broader Market	1	High	Reciprocal settlement terms for IESO and MPs	
Broader Market	2	High	Intermediate Dispute Mechanism (new item)	DR-related issues often do not fit will into the current NOD structure, which only considers the correctness of calculations with specific inputs. An alternative process is required that allows for the review of judgement items that cannot be properly addressed through the NoD system without resorting to the formal dispute arbitration process.
IESO and DRWG	3	High	Maintain standby notice	Standby is a requirement for the majority of our contributors.
External to IESO	4	High	Commitment to DR Auction capacity in LTEP	
IESO and DRWG	5	High	Improved test dispatch structure	
IESO and DRWG	6	High	Allow dispatchable loads to be contributors in HDR resources	
IESO and DRWG	7	High	Varying DR Capacity Obligations	Allow for monthly variations in MW commitment levels rather than just one seasonal value.
IESO and DRWG	8	High	Utilization payment	
IESO and DRWG	9	High	Eliminate virtual zonal DR limits	
IESO and DRWG	10	High	Longer commitment periods for some DR	
Broader Market	11	High	Peaksaver transition	
IESO and DRWG	12	Medium	Automated measurement data submission capability	
IESO and DRWG	13	Medium	Less stringent ROI requirements	
External to IESO	14	Medium	Easy access to residential measurement data	
IESO and DRWG	15	Medium	Allow capacity transfers within commitment period and between zones	
IESO and DRWG	16	Medium	More efficient contributor management data entry process for aggregated resources	
IESO and DRWG	17	Medium	More flexible dispatch duration	
IESO and DRWG	18	Medium	Review effectiveness of historical 15/20 baseline for HDR resources	
IESO and DRWG	19	Low	Automated notification for standby and activation notices	
IESO and DRWG	20	Low	Preparation for future Incremental Capacity Auction	
IESO and DRWG	21	Low	Create new peak DR resource for weather-sensitive loads	
Broader Market	22	Low	Reduce minimum energy market resource size	
IESO and DRWG	23	Low	Eliminate or shorten standby notice
