Subject: feedback on Nov 16, 2017 DRWG meeting

Hi,

See below my feedback to the DR Working Group meeting of Nov 16, 2017.

1. How the IESO will make sure that all discuss we had during DRWG will be communicated properly to the ICA stakeholder? Also, How IESO will incorporate previous and future modification implemented in the DR Auction (recommended by the DRWG) into the Incremental Capacity Auction?
2. Regarding the discussion paper from Navigant about utilization payments, How and who will determine the weighted of each arguments against and for? Each argument have their merits and can have a different weight depending of your point of view.

Serge Laflamme, ing., P.Eng.
