

2017 DR AUCTION RESULTS

Demand Response Working Group

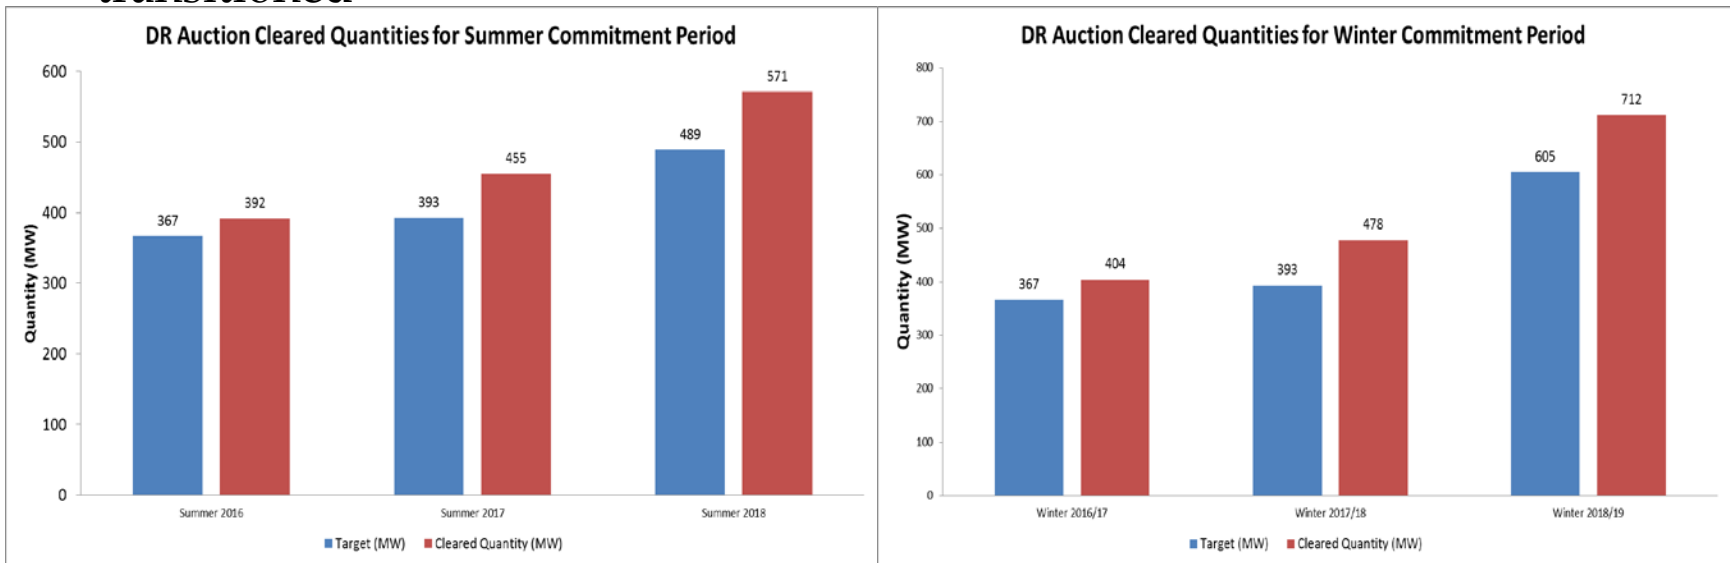

January 30, 2018

2017 DR Auction – Overview

- IESO conducted 3rd annual DR Auction in December, 2017 for:
 - Summer Commitment Period
 - 12:00 to 21:00 EST for all business days, May – October, 2018
 - Winter Commitment Period
 - 16:00 to 21:00 EST for all business days, November, 2018 – April, 2019

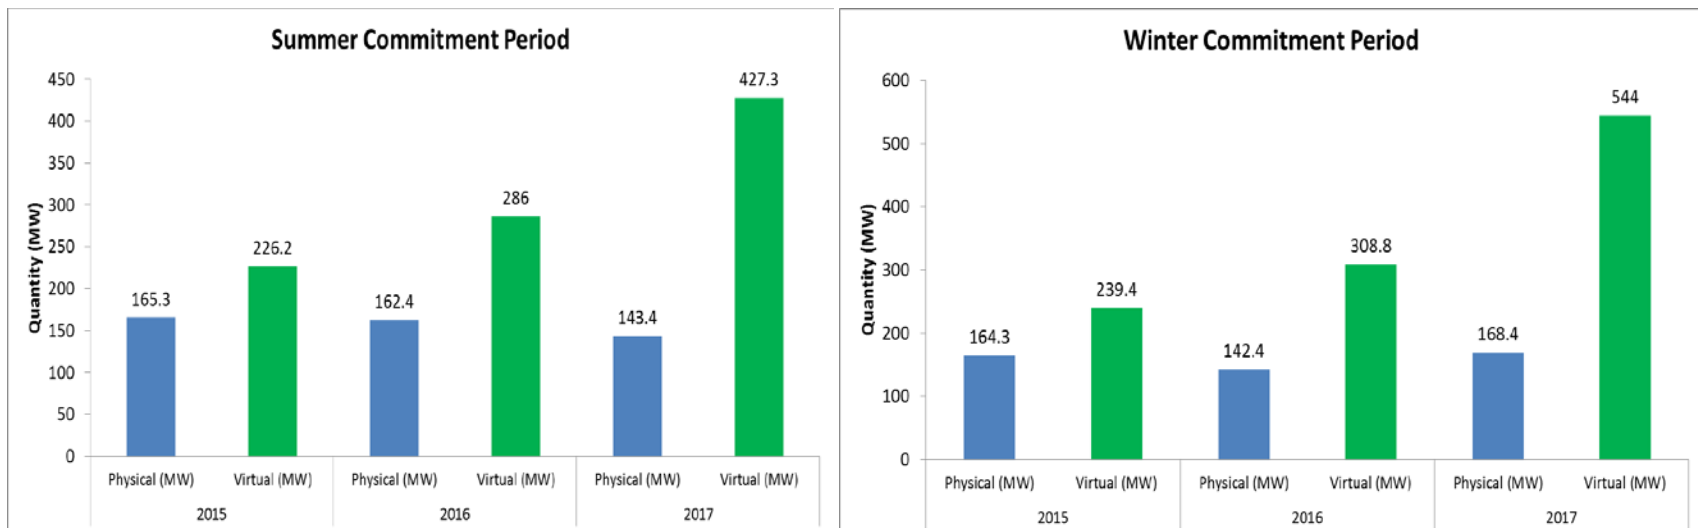

2017 DR Auction – Quantities

- Cleared quantities increased by 25% for Summer and 49% for Winter commitment period from last year due to increase in target capacity to:
 - Allow for increased participation (7% added to 2016 DR target capacity)
 - Transition capacity from expiring CBDR and DR Pilot contracts
 - Transition capacity from expired Peaksaver program
- All expiring contracted DR capacity has been successfully maintained and transitioned

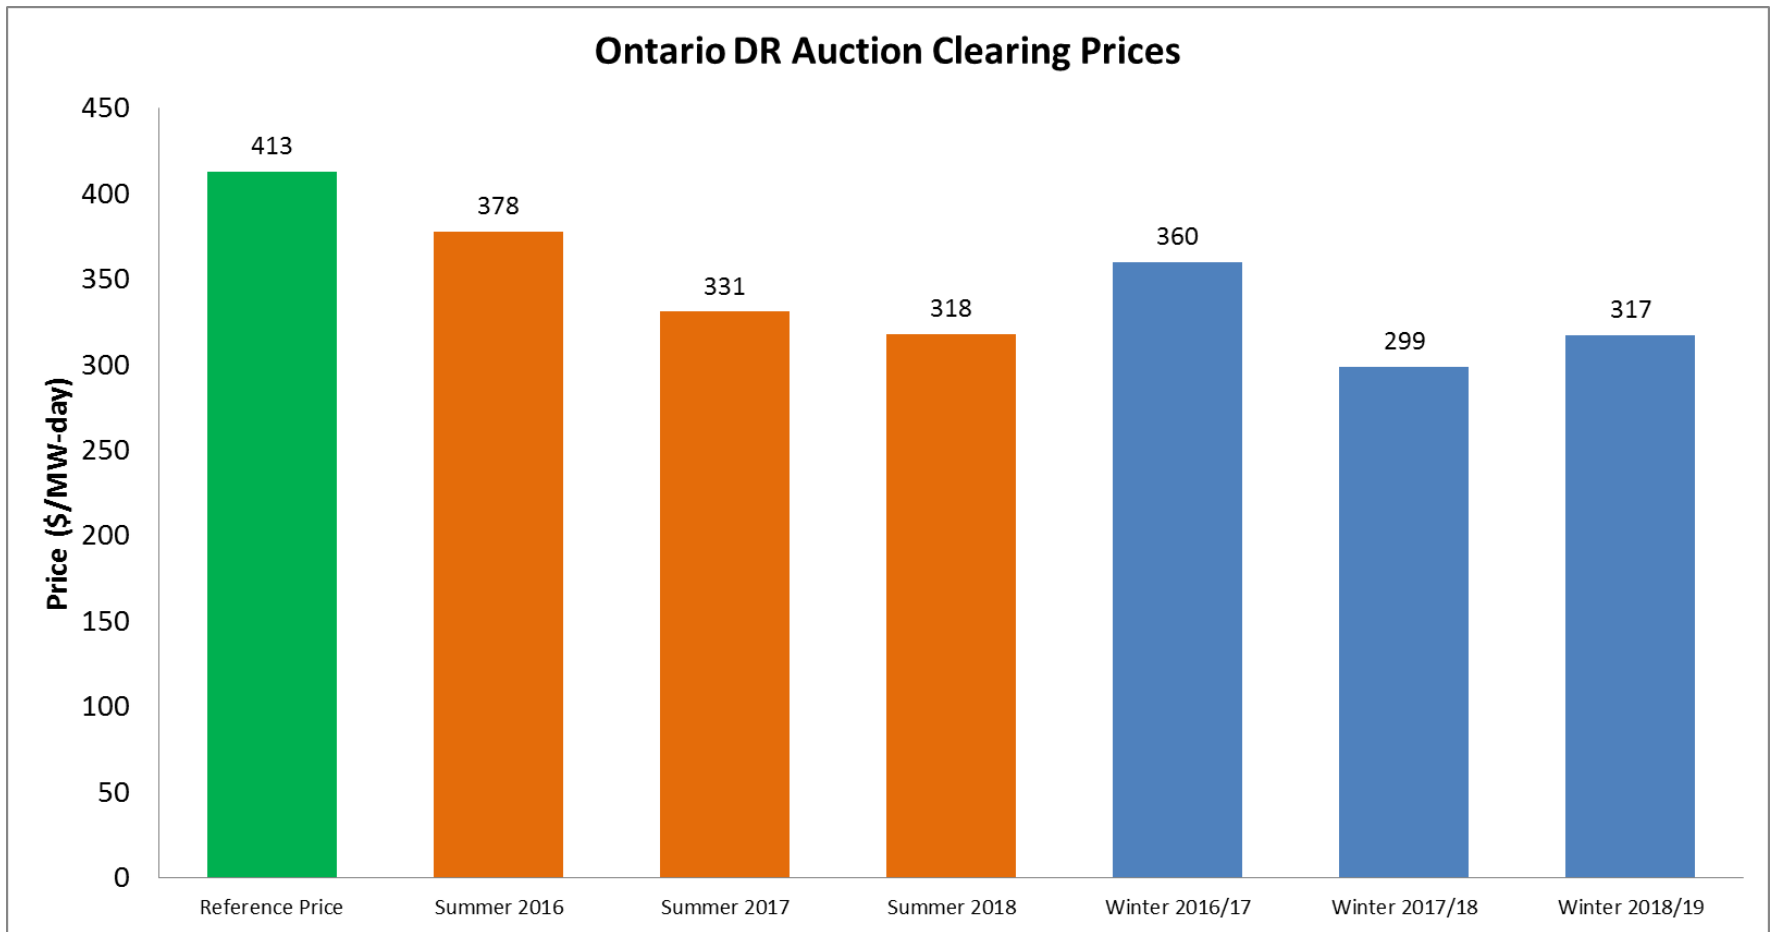

2017 DR Auction – Participation Breakdown

- Six new participants cleared the auction representing mix of residential, commercial and industrial (C&I) DR resources
- Virtual resources represent mix of Residential and C&I load
 - Residential DR is 13 MW for 2018 Summer commitment period with two new participants, representing slightly more capacity than 2017 Summer commitment period
