

Memorandum

To: Demand Response Working Group (DRWG)

From: Jason Grbavac, Senior Advisor, IESO Engagement

Date: April 25, 2019

Subject: Market Rule Amendment Submission (MR-00437) - Resolute FP Canada Inc.

Further to the information shared with the DRWG at its February 12 meeting, the IESO'S Technical Panel (TP) has been reviewing a market rule amendment submission initiated by an IESO market participant, Resolute FP Canada Inc. (Resolute).

At the March 5 TP meeting, both the IESO and Resolute presented their respective positions on the amendment submission for the TP's review. The TP decided that further information and additional responses to questions they had were required. Therefore, TP members were invited to submit questions to both the IESO and Resolute via email with the commitment to have responses shared in advance of the April 16 TP meeting. Those responses can be reviewed here ([IESO responses](#) and [Resolute responses](#)).

During the April 16 TP meeting, the TP convened to determine next steps regarding this amendment submission; ultimately, asked to determine whether the rule language as proposed should be recommended to the IESO Board for review and consideration.

At this meeting, there was a significant amount of discussion and new questions that were either answered during the meeting or taken back by either the IESO or Resolute. As a result, the TP agreed to convene again on May 2 to review responses to these takeaways, review any [stakeholder feedback](#) that has been received since agreeing to post from April 16 to April 26, and take a vote on whether this market rule amendment submission is in a position to send for consideration to the IESO Board.

Market participants and stakeholders are asked to send comments on the proposal by **April 26** to rule.amendments@ieso.ca to support the TP in its May 2 vote.

For more information, including the positions and response to TP questions from both Resolute FP and the IESO, please visit the [Technical Panel webpage](#).
