The Independent Electricity System Operator (IESO) has applied to the Ontario Energy Board for approval of its proposed revenue requirement, expenditures and fees to be charged effective January 1, 2018. The proposed revenue requirement, expenditures and fees are based on the IESO's 2018-2020 Business Plan that was approved by the Minister of Energy on March 19, 2018. The IESO is seeking the following approvals:

- a 2018 net revenue requirement of \$190.8 million, which includes a proposed capital expenditure envelope of \$26.6 million
- IESO usage fees of \$1.2402 per Megawatt hour (MWh) for domestic customers and of \$1.0115 per MWh for export customers commencing January 1, 2018, a 1.8% increase and 2.5% increase, respectively from the previous year's approved usage fees
- to calculate the usage fees using information provided to the IESO by electricity distributors on the amount of embedded generation in their service territory
- to rebate (or charge) to market participants the difference between the 2018 IESO usage fee approved by the Ontario Energy Board and the interim usage fee or fees paid
- to continue to retain \$6 million as an operating reserve, and to rebate \$1.4 million (amount in excess of the operating reserve) to market participants
- to continue to charge registration fees of up to \$10,000 per proposal for electricity supply and capacity procurements, including conservation and load management procurements
- to continue to charge a market participation application fee of \$1,000

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider the IESO's requests. We will consider the evidence filed by the IESO, question the IESO on its proposals, and allow interested individuals and groups that wish to participate to provide evidence, question the company and make arguments about whether the requests should be granted. At the end of this hearing, the OEB will determine if the IESO's proposed revenue requirement, expenditures and fees are appropriate and whether the approvals sought should be granted.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY
