

2017 IESO Stakeholder Summit Agenda

June 12, 2017

Beanfield Centre | Main Ballroom | 105 Princes' Blvd | Toronto, Ontario, Canada

Registration/Breakfast 7:30am

Welcome to the Stakeholder Summit 8:30
Terry Young, Vice President, Conservation & Corporate Relations, IESO
James Scongack, Vice President, Corporate Affairs, Bruce Power and Vice Chair IESO SAC

Section I: Examining trends to a cleaner grid: decarbonisation on electricity markets and systems and how to learn from impacts and realize potential opportunities

Perspectives on Energy Demand, Capital, Technology, and Policy (Nat Bullard, Head of Content, Bloomberg New Energy Finance) 8:45

Panel: Building Flexibility into the Electricity System 9:15
A panel of experts discuss the tools and rules that should be considered as electricity systems integrate and manage the influx of emissions-free power.

- Moderator, Leonard Kula, Vice President, Market and System Operations & Chief Operating Officer
- Rupp Carriveau, Associate Professor, University of Windsor
- Rob Coulbeck, VP Energy Management, Goreway Station Partnership
- Christian Weeks, Vice President and General Manager, Global Demand Response, EnerNOC

Break 10:15

Panel: The Influence of Decarbonisation on Tomorrow's Electricity Market 10:45
This panel will discuss experiences in other jurisdictions with electricity markets that are seeing the effects of growing renewable resource penetration, and how markets are reacting to these shifts.

- Moderator, Adam White, President & CEO, Powerconsumer Inc
- Jack Burkom, Senior VP Commercial Development, Brookfield Energy Marketing Inc
- Pete Fuller, Vice President, Market & Regulatory Policy, NRG
- Kathleen Spees, Principal, The Brattle Group

Lunch (provided) 12:00pm

Section II: Examining the expanded grid: learning how distributed energy networks and empowered consumers change the make-up of traditional electricity markets and systems

How ISOs and RTOs can create a more nimble, robust bulk electricity system (Edward Arlitt, IESO, Chairman, ISO-RTO Council Emerging Technologies Task Force) 1:00

NYISO Market Initiatives: Distributed Energy Resource Roadmap & Integrating Public Policy (James Pigeon, Manager, Distributed Resources Integration NYISO) 1:30

Advancing Customer Driven Solutions (Vinay Sharma, President London Hydro, EDA Chair & Todd Wilcox, President, North Bay Hydro, Past Chair, EDA) 2:00

Break 2:30

Panel: Empowering consumers through conservation and demand management 2:50

This segment will describe how consumer engagement in conservation and demand management is happening in other jurisdictions. As consumers continue to see high electricity prices, and expanded opportunities for self-generation, what offerings will it take for customers to meaningfully engage with the grid?

- Moderator, John Sherin, Manager, Climate Change and Energy Conservation, The Regional Municipality of York
- Kenneth Black, Co-Chairman, E Source
- Matt Duesterberg, CEO and Co-founder, OhmConnect
- Robert King, President, Good Company Associates

Summit Wrap-up: Tim O'Neill, Chair, IESO Board of Directors 3:50
IESO Chair provides perspective on key learnings from the day and how the IESO Board of Directors engages with stakeholders

Summit Adjournment 4:00
