

Robert J. King

Bob King is the North American Policy Advisor to Whisker Labs a subsidiary of Earth Networks. He has provided legislative and regulatory, as well as, business development consulting and support services to a range of energy technology and service companies since 1990. King's private sector work has included a stint as Vice President of Resource Management International, now Navigant Consulting, and SW Regional Director of KENETECH Corporation. King earlier had a 20-year career in government service. He was the first director of renewable energy programs for the Tennessee Valley Authority, assistant to the Chairman of the Texas Railroad Commission, and worked for the Lt. Governor of Texas, and the Governor of Texas. He formed and ran an Office of Natural Resources for the Texas Agriculture Commissioner. He was also for two years senior advisor to the Governor of California on energy efficiency and renewable energy. He currently services as CEO of the Southcentral Partnership for Energy Efficiency as a Resource, and as immediate past president of the Gulf Coast Power Association, and on the boards of the North American Advanced Energy Management Alliance, Peak Load Management Alliance, and Mission:data. He is a registered engineer and lobbyist, and trained mediator. Bob is a graduate of Vanderbilt engineering school, and the LBJ School of Public Affairs, at UT, Austin.
