

Todd Wilcox

In addition to his role as the EDA Past Chair, Mr. Wilcox currently serves as the President and Chief Operating Officer of North Bay Hydro, and has served on the EDA Board since 2009.

Mr. Wilcox has extensive senior executive leadership experience, having worked at some of the largest utilities in Canada. His career, in addition to his roles in the North, has also involved diverse front line operational roles, senior management, and successful start-ups, all within the energy sector.

Over his 35-year career Mr. Wilcox has advised leading public and private sector organizations on large-scale energy-related investments. Holding a Bachelor of Science with Honours in Forestry from the University of Toronto, the expertise he has gleaned from numerous roles on boards and committees as well as his insights on the provincial electricity system will serve the members of the EDA well.
