Subject: RE: MIS Refresh: Request for feedback

Ryan:

On the webex the IESO stated that this project's scope does not include moving from 2 schedule to a 1 schedule system.

However, after some more thought I had a couple of more questions I hoped you might be able to answer:

- Since the DSO is moving to the same platform (CPLEX) as the DAOS – does this mean that the RT and the DA scheduling systems will now be able to communicate? As you recall there are some issues with the DA scheduling because the RT and DA engines don't speak
- Will the new DSO on the new platform be capable of 3 part offers in the RT (as is currently in the DA)? If so, is the IESO looking to implement 3 part offers in the RT to coincide with the Nov. 2017 implementation?

Thanks,
Margaret

Subject: MIS Refresh: Request for feedback

Please find attached the presentation which was discussed during the MIS Refresh webinar on October 6th. As indicated during the webinar, the IESO is seeking feedback in particular from stakeholders on the proposed testing schedule outlined in this presentation. Please provide any feedback by Tuesday October 20th. Feedback can be sent to stakeholder.engagement@ieso.ca
