

# Memorandum

To: Technical Panel

Re: MR-00429: Minor Amendment Omnibus 2017

Attached for Technical Panel review and consideration are the following documents:

- Market rule amendment submission MR-00429-Q00 (IESOTP Feb 2017-4b);
- Market rule amendment proposal MR-00429-R00 (IESOTP Feb 2017-4c).

The IESO proposes a number of minor amendments to the market rules. These amendments correct cross-references, remove redundancy and clarify procedures related to the de-registration of registered facilities. The amendments relate to a number of different areas of the market rules, and for efficiency, have been submitted as a single “omnibus” package.

## **Recommendation – Warrants Consideration**

The IESO recommends that the Technical Panel determine that the amendment submission warrants consideration as the changes meet the following criteria:

1. They identify errors within the market rules; and
2. They identify ambiguity or confusion within the market rules.

## **Recommendation – Priority**

The IESO recommends that the Technical Panel assign a regular priority to the development of the suggested changes.

## **Panel Decision Required**

Pending the Technical Panel’s determination that the amendment submission warrants consideration, and after incorporating any Technical Panel comments into the amendment proposal, the IESO recommends that the Panel agree to post MR-00429 for stakeholder comment for a period of two weeks, ending on March 2, 2017. The target for IESO Board consideration of the amendment is April 12, 2017.

Yours truly,  
Josh Duru
