

# Memorandum

To: Technical Panel  
From: Josh Duru  
Date: June 20, 2017  
Re: MR-00431: Market Rules True-Up – Disconnection Orders

Attached for Technical Panel review and consideration are the following documents:

- Market rule amendment submission MR-00431-Q00;
- Market rule amendment proposal MR-00431-R00.

The IESO proposes to amend the market rules to explicitly identify the obligation of transmitters, distributors and other market participants to comply with disconnection orders issued by the IESO to give effect to a suspension order, termination order or an IESO ordered de-registration of a market participant's facilities due to persistent breaches of the market rules.

In addition, the IESO proposes to amend references to disconnection orders within the grid connection requirements of the market rules in order to create consistency regarding the types of market participants to whom the IESO may issue a disconnection order.

## **Recommendation – Warrants Consideration**

The IESO recommends that the Technical Panel determine that the amendment submission warrants consideration as the changes correct an error, clarify the IESO's intent and create consistency within the market rules.

## **Recommendation – Priority**

The IESO recommends that the Technical Panel assign a regular priority to the development of the suggested changes.

## **Panel Decision Required**

Pending the Technical Panel's determination that the amendment submission warrants consideration, and after incorporating any Technical Panel comments into the amendment proposal, the IESO recommends that the Panel agree to post MR-00431 for stakeholder comment for a period of two weeks, ending on July 13, 2017. The target for IESO Board consideration of the amendment is August 30, 2017.

Yours truly,

Josh Duru
