PART 3 – SUBMISSIONS IN SUPPORT OF WAIVER APPLICATION

Attach a waiver applicant's plan detailing:

- The manner and time within which the waiver applicant will become compliant with the obligation or standard to which the waiver application relates;
- The manner in which the waiver applicant proposes to modify its equipment or facilities or otherwise conduct its operations during the period of time for which the waiver would be in effect; and
- The waiver applicant's estimate of any costs that may be imposed on the IMO or on other Market Participants, if the waiver were granted;

The following submissions must be included, either as attachments or in the space provided below:

- The waiver applicant's assessment as to whether or not the waiver, if granted would:
 - ◆ Materially threaten the ability of the IMO to direct the operations and maintain the reliability of the IMO-controlled grid;
 - ◆ Materially threaten the ability of the IMO to ensure non-discriminatory access to the IMO-controlled grid;
 - ◆ Unless the waiver applicant is the IMO, materially affect the ability of the IMO to operate the IMO-administered markets in an efficient, competitive and reliable manner;
 - ◆ Provide the waiver applicant with an undue preference within the IMO-administered markets;
- An assessment of the costs or delay to the waiver applicant of complying with the obligation or standard to which the waiver application relates;
- Where the waiver applicant is the IMO, identification of the benefit to Market Participants of compliance with the obligation or standard to which the waiver application relates relative to the financial and other resources required to achieve compliance within such deadlines as may be applicable;
- Where the waiver applicant is the IMO, the manner in which it proposes to operate the IMO-administered markets or direct the operations and maintain the reliability of the IMO-controlled grid during the period in which the waiver would be in effect;
- Identification as to whether the facility or equipment that is the subject-matter of the waiver application:
 - ◆ Was in service or was returned to service on the date on which the obligation or standard to which the waiver application relates came into force;
 - ◆ Was ordered by the waiver applicant on or prior to the date on which the obligation or standard to which the waiver application relates came into force; or
 - ◆ Was in the process of construction on or prior to the date on which the obligation or standard to which the waiver application relates came into force.

Submission Information:

Crystal Falls GS Waiver Plan:

Appendix 2.2 requires a high priority path voice circuit for each control centre. OPG's Northbury Control Centre controls Crystal Falls GS which is classified as a *minor facility*. Voice circuits available at Northbury Control Centre for the IMO's use, is limited to two unlisted numbers on the PSTN. Crystal Falls is the only generation facility controlled from Northbury that is being registered with the IMO for the purpose of participating in the IMO-administered market.

A waiver is being requested to recognize this limitation.

This limitation will remain in effect for the life of the equipment.

Plan to operate with waiver in place:

Operations - Pre-market practices will continue.

Reliability of Grid/non-discriminatory access/impact on IMO-administered market/undue preference:

OPG's assessment of this application is that:

- ◆ It does not materially threaten the ability of the IMO to direct the operations and maintain the reliability of the IMO-controlled grid;
- ◆ It does not materially threaten the ability of the IMO to ensure non-discriminatory access to the IMO-controlled grid;
- ◆ It does not materially affect the ability of the IMO to operate the IMO-administered markets in an efficient, competitive and reliable manner;
- ◆ It does not provide OPG with an undue preference within the IMO-administered markets;
- ◆ No additional costs will be imposed on the IMO or other Market Participants through the approval of this waiver

Impact on OPG of waiver not being granted:

If OPGI was not granted waivers for non complying capabilities, significant capital investment in new equipment would be required.

PART 4 – SUMMARY OF SUBMISSIONS IN SUPPORT OF THE WAIVER APPLICATION

Please summarize the information provided in Part 3. This summary will be posted on the IMO public Web site.

Summary:

The waiver request is for a waiver from the requirement to supply a high priority path facility, relating to the requirements of Chapter 2, Appendix 2.2 of the Market Rules.

The capability limits of this facility existed before the new IMO controlled market was introduced. The equipment does not meet the new market rules, and a waiver is required to operate the equipment at its current capability for the life of the equipment. The waiver is required for the following equipment: - voice communication circuits.
