### **PART 3 – SUBMISSIONS IN SUPPORT OF WAIVER APPLICATION**

#### **Attach a waiver applicant's plan detailing:**

- The manner and time within which the waiver applicant will become compliant with the obligation or standard to which the waiver application relates;
- The manner in which the waiver applicant proposes to modify its equipment or facilities or otherwise conduct its operations during the period of time for which the waiver would be in effect; and
- The waiver applicant's estimate of any costs that may be imposed on the IMO or on other Market Participants, if the waiver were granted;

#### **The following submissions must be included, either as attachments or in the space provided below:**

- The waiver applicant's assessment as to whether or not the waiver, if granted would:
  - ◆ Materially threaten the ability of the IMO to direct the operations and maintain the reliability of the IMO-controlled grid;
  - ◆ Materially threaten the ability of the IMO to ensure non-discriminatory access to the IMO-controlled grid;
  - ◆ Unless the waiver applicant is the IMO, materially affect the ability of the IMO to operate the IMO-administered markets in an efficient, competitive and reliable manner;
  - ◆ Provide the waiver applicant with an undue preference within the IMO-administered markets;
- An assessment of the costs or delay to the waiver applicant of complying with the obligation or standard to which the waiver application relates;
- Where the waiver applicant is the IMO, identification of the benefit to Market Participants of compliance with the obligation or standard to which the waiver application relates relative to the financial and other resources required to achieve compliance within such deadlines as may be applicable;
- Where the waiver applicant is the IMO, the manner in which it proposes to operate the IMO-administered markets or direct the operations and maintain the reliability of the IMO-controlled grid during the period in which the waiver would be in effect;
- Identification as to whether the facility or equipment that is the subject-matter of the waiver application:
  - ◆ Was in service or was returned to service on the date on which the obligation or standard to which the waiver application relates came into force;
  - ◆ Was ordered by the waiver applicant on or prior to the date on which the obligation or standard to which the waiver application relates came into force; or
  - ◆ Was in the process of construction on or prior to the date on which the obligation or standard to which the waiver application relates came into force.

Submission Information:

**PART 3 – SUBMISSION IN SUPPORT OF WAIVER APPLICATION (CONTINUED)**

#### **PART 4 – SUMMARY OF SUBMISSIONS IN SUPPORT OF THE WAIVER APPLICATION**

Please summarize the information provided in Part 3. This summary will be posted on the IMO public Web site.

**Summary:**

- The applicant is seeking an exemption from an IMO Data Monitoring requirement. Specifically, the exemption pertains to the Market Rules related to IMO Voltage Monitoring requirements in Appendix 4.15
- Since the applicant currently has no plans to enter the VAR Market, the additional value derived from bus voltage monitoring is reduced.
- The applicant does not need to operate differently or modify its equipment during the time period for which the exemption is in effect.
- The applicant estimates there will be no costs imposed on the IMO or other Market Participants if the exemption is granted.
- The applicant does not believe the granting of the exemption would materially threaten the reliability of the IMO controlled grid.
- The applicant does not believe the granting of the exemption would materially threaten the ability of the IMO to ensure non-discriminatory access.
- The applicant does not believe the granting of the exemption would materially threaten the ability of the IMO to operate the market in an efficient, reliable, and competitive manner.
- The applicant does not believe the granting of the exemption would provide the applicant with an undue preference.
- Note: The facility was in service before the date on which the obligation or standard came into force.
