Subject: May 20th Foundation Meeting - Request for Use Cases

At the Foundation Stakeholder Session on May 20, the IESO will be allowing time in the agenda for a discussion on use cases for electricity data submitted by stakeholders. To that end, the IESO is asking stakeholders to submit a brief description (2-3 sentences) of one or more use cases involving electricity data to be considered for detailed development at the meeting. Please send use case descriptions to stakeholder.engagement@ieso.ca by end of day Friday May 15.

Stakeholders who would like to participate in the May 20 session but have not yet done so can register and receive further details by contacting stakeholder.engagement@ieso.ca

Thank you – Ryan King
