**Subject:** Foundation Working Group -Recommendations for Stakeholder Comment  
**Attachments:** FWG Geolocation and Occupant Change Recommendation 1-Oct-2015.pdf; FWG Third Party Access Framework Proposal - 1-Oct-2015.pdf; Proposed De-identifying Information Framework Recommendation -1-Oct-2015.pdf

Please find attached for review three papers which reflect the substantive discussions and proposed recommendations of the Foundation Working Group. These include:

- Recommendations for the minimum set of data needed to enable further use of energy consumption data in the Meter Data Management Repository (MDM/R);
- A framework and recommendations related to third party access to data; and,
- A framework and recommendations for de-identifying personal information in order to facilitate access to data while protecting privacy

Stakeholders are invited to review and provide feedback on these respective recommendations. This feedback will inform the development of a final set of recommendations for this engagement. This material will be posted on the stakeholder engagement [webpage](#) and stakeholders are encouraged to forward or share this material with colleagues or peers who may have an interest in commenting on these recommendations.

Stakeholders are asked to submit feedback to [stakeholder.engagement@ieso.ca](mailto:stakeholder.engagement@ieso.ca) by **Wednesday October 14**.
