Subject: SE-109 Update and Reminder for Preliminary Web Client Testing

Thank you to those who participated in the November 19th webinar of the Outage Management Process Redesign. The deadline for stakeholder feedback was Friday December 4th, 2015 on the following materials:

1. CROW Software Changes (slide 4)
2. Revised Data Migration and Process Transition Strategy (slides 5 to 9)
3. Proposal for Managing Outage Conflicts and Conflict Rationale (slides 10 to 13)
4. Registration for Preliminary Web Client Testing (Slide 4)

Other than several participants expressing their interest to participate in web client testing, no additional feedback was received. As a result, the IESO considers the materials presented as approved for implementation.

Reminder: Preliminary Web Client Testing (January 26, 2016)

The IESO will be holding a CROW Web Client testing session on January 26th from 09:00 a.m. to 2:00 pm and is looking for additional volunteers. The proposed agenda is:

- Introduction and Web Client Demo
- Structured Testing
 - Client Navigation
 - Creating / Submitting Outage Requests
 - Interacting with IESO
 - Printing/Reporting
- Unstructured (Random) Testing
- Group Feedback / Q&A

Please contact stakeholder.engagement@ieso.ca by Friday December 18, 2015 to register.

Thank you - Rick Romeo
