**To:** IESO Stakeholder Engagement  
**Subject:** Notification of Adequacy Reporting initiative

The IESO has launched a new Adequacy Reporting initiative and is looking to engage stakeholders regarding some proposed changes to the adequacy reports – including the System Status Reports and Security and Adequacy Assessments, among others. We would like to notify Outage Management Process Redesign participants about this initiative and encourage participation, by reviewing the materials and providing feedback from an outage management perspective. The IESO intends to use the outcomes of this engagement to support the reporting requirements for the proposed outage management process redesign.

The IESO is hoping that engaged stakeholders will join a webinar on January 14, 2015, at 10 am. The IESO will walk stakeholders through a presentation and answer questions pertaining to the sample files, which are posted at: <http://www.ieso.ca/Pages/Participate/Stakeholder-Engagement/Adequacy-Reporting.aspx>. If you are interested, please confirm your attendance by emailing [stakeholder.engagement@ieso.ca](mailto:stakeholder.engagement@ieso.ca).

Thank you - Rick Romeo
