Subject: Feedback Requested and Next Meeting - Outage Management Redesign (SE-109)
Attachments: SE109 Outage Management Redesign Requirements Summary_v2 0.pdf; SE109_Presentation_Feb_11_15_Final.pdf

Thank you to those who participated in the February 11 webinar of the Outage Management Process Redesign. At this time, we are seeking feedback on the materials referenced at this meeting.

February 11 presentation material (attached for your quick reference) – Please provide feedback via email to stakeholder.engagement@ieso.ca by **Friday, February 20, 2014**. The following suggestions are meant to help guide your feedback, however, please feel free to comment on any aspect of the material.

1. Changes to the Outage Management Redesign Requirements Summary document (Slide 3). Please find attached the latest redlined version of the document and note that two additional corrections (also redlined) were made since the webinar was held as follows:
 - Appendix G – the ‘VARIES’ constraint code column has been completely removed as it does not apply to the process or software redesign. It was inadvertently left in the appendix from a previous version.
 - Appendix G – the ‘MUSTRUN’ constraint code can also be applied to Synchronous Condensers. This detail was inadvertently left out of the appendix.
2. Proposed IESO Reporting Obligations for the Quarterly, Weekly and Daily Advance Approval Processes (Slides 4 & 5).
3. Proposed Market Rules development schedule (Slide 6).

Stakeholders are also asked to comment on how the Interim Outage Management Process has improved outage related services received from the IESO (e.g. outage certainty, planning and coordination, communications etc.). Comments can be provided by email to stakeholder.engagement@ieso.ca. This feedback will help determine how well the objective of improving these services for market participants is being met.

Next Meeting – April 1 from 09:00 to 11:00 am. Please email stakeholder.engagement@ieso.ca to register to participate in person or via webex.

Please contact stakeholder.engagement@ieso.ca if you have any questions.

Thank you, Rick Romeo
