Subject: IESO Launches Consultation on Outage Management Process (SE-109)

The IESO is seeking stakeholder comment as it begins a consultation on a redesign of its outage management process. The intent of SE-109 'Outage Management Process Redesign' is to ensure that those market participants who submit outage information to the IESO have an opportunity to provide feedback and input in the process redesign.

As a first step, interested parties are invited to provide comments on the Stakeholder Engagement Plan posted at http://ieso.ca/imoweb/consult/consult_se109.asp. A stakeholder meeting to provide background and discuss the proposed design principles for this project will be held in Mississauga on April 17 at 9:00 a.m. Materials will be sent in advance of the meeting.

To register for the meeting and to submit comments, please email stakeholder.engagement@ieso.ca. Please indicate if you or your company delegate will attend the meeting in person or via teleconference.

Thank you.
