Subject: Outage Management Process Redesign meeting April 23

The next stakeholder meeting for the Outage Management Process Redesign will take place on April 23 from 9 to 11:00am both in person at the IESO in Mississauga and via webinar. This stakeholder meeting will initiate the continuation of the Final Process Redesign and will focus on: the successful Respondent (Vendor) to the RFP, an overview of the proposed solution capabilities, the proposed project plan for implementation, and the proposed near-term and mid-term process security and adequacy assessment methodologies.

This stakeholder engagement was established to ensure that those market participants who submit outage information to the IESO have an opportunity to provide feedback and input in the process redesign.

Stakeholders can find out more information on the webpage for the consultation:

<http://www.ieso.ca/Pages/Participate/Stakeholder-Engagement/SE-109.aspx>.

Registration for the webinar is available until April 16, by emailing stakeholder.engagement@ieso.ca.

Regards,
IESO Stakeholder Engagement
