**Subject:** ITSC April Meeting Date & Committee Updates

ITSC Members,

Thank you for your continued participation and willingness to play an important role in the stakeholder engagement efforts of the IESO through the IT Standing Committee (ITSC). We want to let you know that we have undertaken an effort to update the vision of this committee and have set a date for the next ITSC meeting.

### **ITSC Vision**

The overall objective of the ITSC is to coordinate the full scope of IT projects at the IESO in an organized project roadmap. The intention is to keep this membership informed of all work underway at the IESO that is relevant to this committee and to solicit stakeholder feedback throughout the process. The ITSC will review the IT-related initiatives within the IESO which may also include projects and initiatives underway in parallel with the items already within focus for this committee.

### **Draft Terms of Reference**

To support this updated vision, we are undertaking a revision of the Terms of Reference (TOR) which would benefit from your input. The draft TOR will be distributed to members by early April for input prior to finalizing the document after our next meeting. Please consider providing your feedback to that document once available to better outline the scope of the work for this committee.

### **Updating Membership**

Similarly, we hope to enhance our membership list to ensure it includes any stakeholders who are interested in supporting the goals of this committee, as well as represent the interests of their respective organizations where they align with the objectives of the ITSC. Therefore, if you would like to modify who participates on this committee from your organization or would like to consider adding resources from your organization to this group, please use the email below to request any membership requests.

### **Next Meeting**

The next ITSC meeting will take place at the IESO's Mississauga office on **Thursday, April 16 at 9:30AM – 11:00AM**. The meeting will be available for those able to attend in person as well as via telephone and webinar. To properly facilitate the meeting logistics, we ask that you please RSVP to [stakeholder.engagement@ieso.ca](mailto:stakeholder.engagement@ieso.ca) and identify if you are attending either in person or via webinar. Note: A meeting agenda and materials will be distributed at least one week in advance for time to review information prior to our discussion. For further information on the ITSC or to review materials that are posted, please visit <http://www.ieso.ca/Pages/Participate/Stakeholder-Engagement/Standing-Committee/IT-Standing-Committee.aspx>.

Thank you again for your participation.

Regards – Jason Grbavac
