Subject: MRWG -Agenda and Related Information
Attachments: MRWG Agenda Nov17 2016.pdf

Please find attached the agenda for the November 17 Market Renewal Working Group. In addition to reviewing the agenda, we are asking Working Group members to come prepared to discuss in particular the following items:

Session 1:

Please identify and bring to the meeting (or provide beforehand if possible) your thoughts on inefficiencies related to the current Ontario wholesale market design in the following areas:

- Wholesale energy market inefficiencies
- Resource adequacy and capacity procurement inefficiencies
- Inefficiencies related to system flexibility, operating reserves, and other ancillary services
- Inefficiencies related to intertie operations and utilization

Session 5:

Please come prepared to discuss the interaction between contracted and regulated assets and the market renewal initiatives that have been identified to date. In particular, with respect to the matrix provided below, please consider the following questions:

- Are the three asset types in the table an appropriate way to group resources for the purpose of the benefits case?
- What are the key interactions between each asset type and initiative that need to be considered?
- How can these interactions be managed to allow for a smooth transition to the new market design?
- What needs to be considered in order to assess the impact of each asset type on achievable benefits?

		Initiatives				
		Single Schedule	Day Ahead Market	Enhanced Real-Time Unit Commitment	Capacity Auction	More Frequent Intertie Scheduling
Asset Type	Fixed price					
	Deemed Dispatch					
	Regulated					

Governance

As highlighted at the last meeting, the IESO is seeking written feedback to help start discussions around governance. To that end:

- Please describe how you define governance and what governance means to you in the context of market renewal.

- What are specific examples of concerns you have related to governance and the market renewal project?

One-on-One Discussions

Finally, we encourage any interested parties contact engagement@ieso.ca to request one-on-one interviews with Brattle to support development of the benefits case.

We look forward to this discussion on the 17th.

Regards – Ryan King
