

IESO Engagement Update

March 24 and 26, 2026

This engagement update provides a snapshot of all active IESO engagement activities. It also helps support a greater understanding of linkages between engagements, and a foundation for more comprehensive and integrated updates. For the most up-to-date information, visit the individual engagement links or the [Engagement Initiatives](#) web page.

Forecasting and Planning

Engagements to support provincial and regional electricity planning over the next 20 years.

Active Engagements

Current Status

Bulk Planning – North of Sudbury

The bulk plan will examine the capability of the bulk transmission system's ability to supply increasing levels of demand in the areas surrounding Timmins, Kirkland Lake, and Pinard. The study will also look at creating opportunities to potentially locate new non-emitting resources in the area, as well as the potential for new or upgraded interconnections with Quebec.

Engagement Lead: **Abby Dancey**

Indigenous Engagement Lead: **Keir**

Johnston

- Engagement continues with interested members of the sector on the development of a North of Sudbury study.

Northern Ontario Connection Study

This study will develop options to connect remote First Nations communities to the grid that currently rely on diesel generators for electricity, improve reliability for First Nation communities that are already grid-connected, support critical minerals mining development in the region, and enable the development of new hydro and renewable resources. The study was initiated in response to a request from the government of Ontario, and a final report will be released in the early Fall.

Engagement Lead: **Abby Dancey**

Indigenous Engagement Lead: **Sonia Fazari**

- Final report is in development.

Bulk Planning – South and Central Ontario Bulk Study

This engagement will seek input from stakeholders and communities on the South and Central Ontario Bulk Study initiative.

Engagement Lead: **Abby Dancey**

Indigenous Engagement Leads: **Keir Johnston and Nadia Mirabelli**

- Engagement continues with interested members of the sector on the development of a South and Central Bulk Study.
- A bulk webinar took place on December 12, and feedback was due January 23. IESO responses have been posted to the engagement page.

Bulk Planning – Eastern Ontario Bulk Study

This engagement will seek input from stakeholders and communities on the Eastern Ontario Bulk Study initiative.

Engagement Lead: **Abby Dancey**

Indigenous Engagement Lead: **Nadia Mirabelli**

- Engagement continues with interested members of the sector on the development of an Eastern Ontario Bulk Study.
- A bulk webinar took place on December 12, and feedback was due January 23. IESO responses have been posted to the engagement page.

Regional Planning – Burlington to Nanticoke

Regional electricity planning is underway in this region.

Engagement Lead: **Jessica Singh**

Indigenous Engagement Lead: **Keir Johnston**

- The Hamilton Area Addendum Study began on February 4.
-

Regional Planning – London Area

Regional electricity planning is underway in this region.

Engagement Lead: Chiara Cozzi

Indigenous Engagement Lead: Keir

Johnston

- A webinar was held on December 1, 2025, to share the draft demand forecast and scenarios for the London area.
- Feedback was accepted until December 15 and the IESO's response to feedback was posted on January 26, 2026.

Regional Planning - Northwest

Regional electricity planning is underway for this region.

Engagement Lead: Andreea Nicoara

Indigenous Engagement Lead: Keir

Johnston

- The IESO published the Scoping Assessment Report on September 19.
- Forecast development and draft engagement plan to be shared in a public webinar in early 2026.

Regional Planning – South Georgian Bay Muskoka

Regional electricity planning is underway for this region.

Engagement Lead: **Chiara Cozzi**

Indigenous Engagement Lead: Nadia

Mirabelli, Keir Johnston

- A Scoping Assessment webinar was held on November 4, 2025, to share the recommended planning approach for the South Georgian Bay/Muskoka electrical area.
- Feedback was accepted until November 18, 2025.
- The IESO response to feedback was posted on November 25, 2025.

Regional Planning – Sudbury/Algoma

Regional electricity planning is underway for this region.

Engagement Lead: **Abby Dancey**

Indigenous Engagement Lead: Keir

Johnston

- A Scoping Assessment webinar was held on December 18, 2025, to share the recommended planning approach to proceed with an IRRP for the Sudbury/Algoma electrical area.
 - The IESO's response to feedback, and the final Scoping Assessment Outcome Report have been posted to the engagement page.
 - Engagement on this IRRP will continue through Q3 2027.
-

Resource Acquisition

Engagements to ensure we have the tools and processes to acquire the resources we need to maintain a reliable and efficient system.

Active Engagement

Capacity Auction Enhancements

The annual Capacity Auction is one of the procurement mechanisms included in the IESO's Resource Adequacy Framework and serves as the short-term balancing mechanism in the framework, securing the capacity required to meet Ontario's short-term resource adequacy needs.

Engagement Lead: Josh Acosta

Current Status

- An engagement session was held on January 29 to provide an overview of recent Capacity Auction results, market observations, and emerging challenges related to Hourly Demand Response (HDR) participation.
 - Feedback, along with the IESO response to feedback, will be posted shortly.
 - The next engagement session will take place on March 31.
-

Active Engagement

Current Status

Related Engagements:

- [Resource Adequacy](#)
- [Demand Side Vision](#)

Transmitter Selection Framework

The IESO is developing a Transmitter Selection Framework (TSF) to align with the Powering Ontario's Growth report's actions and plans, with a progress report due to the Minister by Summer 2024.

Engagement Lead: **Fatema Khatun**

Community Engagement Leads: **Nadia Mirabelli and Andreea Nicoara**

- An engagement session was held on January 28 to provide an overview of the procurement plans for the Toronto Third Line and how they relate to the Transmitter Selection Framework.
- Feedback was accepted until February 18.

Toronto Third Line

The IESO is advancing the Toronto Third Line (TTL), a new transmission project identified through the Toronto Integrated Regional Resource Plan (IRRP), to support growing electricity demand and system reliability in the Toronto region. The Government of Ontario has directed the IESO to undertake a competitive procurement process to select a transmitter to design, build and operate the line.

Engagement Lead: **Fatema Khatun**

Community Engagement Leads: **Nadia Mirabelli and Andreea Nicoara**

- An engagement session will be held on April 9 to provide an overview of preliminary Request for Proposals (RFP) design concepts and high-level term sheet concepts and contract considerations. The session will also continue discussions on the proposed Indigenous Engagement and Participation Plan (IEPP) approach.

Active Engagement

Enabling Resources Program

The Enabling Resources Program (ERP) is an integrated set of projects that will enable emerging resources to provide required system services and contribute to the safe and reliable operation of the bulk power system in Ontario. The first ERP project will incorporate electricity storage, and hybrid generation-storage pairings into the IESO-administered markets, tools, and processes. The second project within ERP is to further enable and integrate Distributed Energy Resources (DERs) into the IESO Administered Markets.

Engagement Lead: **Jason Grbavac**

Related Engagements:

- [ERP - Storage and Hybrid Integration Project](#)
- [ERP – Distributed Energy Resource \(DER\) Integration Project](#)

Long-Term RFPs

The IESO is engaging stakeholders and communities on the development of a series of Long-Term RFPs that will seek resources to address needs.

Engagements targeted to communities and the broader public are underway.

Engagement Leads: **Trisha Hickson**

Community Engagement Leads: **Sonia**

Fazari and Abby Dancey

Related Engagements:

- [Resource Adequacy](#)
- [Hybrid Integration Project](#)
- [Market Renewal Program \(MRP\) Implementation](#)

Current Status

- ERP is comprised of two projects: Storage and Co-located Hybrid (S/H) Integration and Distributed Energy Resource (DER) Integration.

Storage and Co-located Hybrid (S/H) Integration:

- Engagement on the S/H project continued in February with a session on Batch 2 design modules. The design modules in Batch 2 include: Connection and Registration; Dispatch Data and Other Inputs; Market Power Mitigation and Settlements.
- Feedback on the Storage project design memos was accepted until February 24. The IESO Response to Feedback will be posted shortly.

Distributed Energy Resource (DER) Integration:

- The Response to Feedback document from the December 3, 2025 submissions on the DER project webpage was posted on January 19 and updated with further clarification on March 9.
- The IESO will continue targeted engagement and outreach on the DER design topics in 2026.

Stakeholder Engagement:

- Engagement on window 1 of the LT2 RFP is now complete.
- Discussions on repowering existing facilities will continue as part of engagement on the LT2.
- An engagement session took place on February 24 to present a high-level approach for incorporating repowered facilities into the LT2 RFP and address stakeholder feedback on repowering. Feedback was accepted until March 13.

Active Engagement

Long Lead-Time Resource Procurement

The IESO is engaging on the proposed design of the Long Lead-Time Resources procurement. This procurement is part of the IESO's broader Resource Adequacy Framework – an enduring approach to identifying the type of acquisition activity to use to resolve system needs.

Engagement Lead: **Trisha Hickson**

Community Engagement Lead: **Abby Dancey**

Current Status

Stakeholder Engagement:

- An engagement session was held on February 26 to provide an update on the draft RFP and contracts and discuss stakeholder feedback received to date. Feedback regarding the supply chain disclosure was due March 5 and other feedback was due March 12.
- The next engagement session will take place on March 26.

Community Engagement:

- On January 29, a community engagement session was held to discuss the draft RFP. Feedback was accepted until February 13.

Local Generation Program

The IESO is engaging stakeholders on a proposal to establish a program that will enable re-contracting of existing resources, and consider opportunities for expansions and new build facilities

Engagement Lead: **Jamie Jang**

Related Engagements:

- [Long-Term RFP](#)
- [Request for Information – Resource Adequacy Framework](#)

- Engagement is anticipated to resume in Q2 2026.

Electricity Demand Side Management (eDSM) Framework

The IESO is engaging on the new 12-year electricity Demand Side Management Framework, the first 3-year plan and future program opportunities

Engagement Leads: **Jamie Jang**

Related Engagements:

- [Resource Adequacy](#)

- An engagement session was held on October 16 to provide an update on the Commercial HVAC DR Program.
- Feedback, and the response to feedback, have been posted on the engagement webpage.
- Engagement continues through 2026.

Active Engagement

[Northern Hydro Program](#)

The IESO engaged with stakeholders on the proposed final program documents and intends to discuss details regarding the launch of the Northern Hydro Program.

Engagement Leads: **Joshua Acosta**

Related Engagements:

- [Resource Adequacy](#)
-

Current Status

- An engagement session was held on January 29 to present the proposed final program documents and discuss details regarding the launch of the Northern Hydro Program.
- Feedback has been posted on the engagement webpage. The response to feedback is expected to be posted shortly.

Operations

Engagements to ensure that Ontario's electricity resources are operating reliably within the IESO-administered market, while also undertaking continuous market improvements.

Active Engagement

[Market Renewal Program \(MRP\) Implementation](#)

The Implementation phase of the Market Renewal Program will begin by codifying the design into the Market Rules and Market Manuals, and then proceed onto creating tools, testing, training, and readiness for bringing the renewed market to life.

Engagement Lead: **Jamie Jang**

Related Engagements:

- [Resource Adequacy](#)
 - [Enabling Resources](#)
 - [DER Market Vision & Design Project](#)
 - [Hybrid Integration](#)
-

Current Status

- A public information session was held on November 26 to provide an update on market performance.
- The next public information session will take place in Q2 2026.

Enforcement Modernization

The IESO's Market Assessment and Compliance Division (MACD) is seeking input from market participants, consumers, community representatives and other stakeholders with respect to modernizing the enforcement processes to support reliability, market efficiency and market integrity.

*Engagement Lead: **Jamie Jang***

- The Market Assessment and Compliance Division (MACD) announced a new engagement relating to its Enforcement Modernization project on October 30.
- Public engagement is anticipated to take place in Q2 2026.

Updates to IESO Monitoring Requirements Phasor Data

The IESO presented rule amendments and market manual changes, outlining new and revised requirements for synchrophasor data for Generators, Transmitters and Storage participants.

*Engagement Lead: **Josh Acosta***

- An engagement session was held on December 18.
- Feedback, along with IESO response to feedback, has been posted on the engagement webpage.

Sector Evolution

Engagements that look to the future to see how innovation, innovative technologies and new collaborations can improve how we conduct our business.

Active Engagement

Future Clean Electricity Fund

Proceeds from the sale of IESO-owned Clean Energy Credits on the Ontario's Clean Energy Credit Registry will be directed to Ontario's Future Clean Electricity Fund. The IESO has been tasked by the Ministry with developing insights and recommendations for a Future Clean Electricity Fund (FCEF).

*Engagement Leads: **Fatema Khatun**
Community Engagement Leads: **Sonia Fazari and Andreea Nicoara***

Related Engagements:

- [Clean Energy Credits](#)

Current Status

-
- Outreach meetings were held in October and November with municipalities to understand insights and recommendations to develop the Fund.
 - The IESO recommendations report was submitted to the Ministry of Energy in December 2023.
 - The IESO will work with the Ministry of Energy and Mines to determine how proceeds from the Future Clean Electricity Fund will be applied to upcoming procurements and infrastructure projects, as outlined in [Ontario's Integrated Energy Plan](#). More information will be shared soon.

Active Engagement

Current Status

Hydrogen Innovation Fund

The 2025 Hydrogen Innovation Fund (HIF) is a \$30 million program that supports innovative hydrogen projects driving Ontario's clean energy transition, economic growth, and job creation. It builds on the 2023 program by expanding eligibility and funding two streams focused on grid integration and broader industrial and transportation applications, with applications opening November 4, 2025.

Engagement Lead: **Fatema Khatun**

Related Engagements:

- [Hydrogen Interruptible Rate Pilot](#)

- An engagement session was held on October 1 to provide an overview of program streams, eligibility, and application requirements ahead of the November 4 application window.
- Feedback and response to feedback have been posted on the engagement webpage.
- Hydrogen Innovation Fund's 2025 Call window is now closed as of February 11, 2026.

Hydrogen Interruptible Rate Pilot

The Minister of Energy asked the IESO to submit a report by September 15, 2023, outlining a plan for the Hydrogen Interruptible Rate Pilot tailored specifically for hydrogen producers and developers in Ontario.

Engagement Lead: **Fatema Khatun**

Related Engagements:

- [Interruptible Rate Pilot](#)

- The IESO submitted a report back to the Minister of Energy and Mines on September 30, 2025.
- A communication update was posted on the engagement page on October 4.

2026 Provincial eDSM Achievable Potential Study

The Ministry of Energy issued a directive to the IESO to conduct an Achievable Potential Study by December 31, 2026.

Engagement Lead: **Jamie Jang**

Related Engagements:

- [Electricity Demand Side Management \(eDSM\) Framework](#)
- [2019 Conservation Achievable Potential Study](#)

- A focused engagement session on Demand Response (DR) and Distributed Energy Resource (DER) potential modelling and input assumptions was held on February 27. Feedback was accepted until March 13.
- The next public engagement session is anticipated to take place in Q2 2026.

Grid Innovation Fund

The IESO is working with the Ministry to review the Grid Innovation Fund (GIF) to enhance governance and determine future innovation-focused funding.

Engagement Lead: **Jamie Jang**

- Virtual roundtable discussions were held on December 9-12 to seek recommendations from across the sector to enhance the GIF governance.
- Written feedback and a written summary of the feedback has been posted.

Updates on the Strategic Advisory Committee and Technical Panel

| Group | Current Status |
|--|---|
| <p><u>Strategic Advisory Committee (SAC)</u></p> <p>The Committee is a forum for its members to be informed of IESO activities and to provide timely policy advice and feedback both broadly on behalf of the electricity sector and their constituency, directly to the IESO Board and Executive with respect to the IESO's mandate.</p> <p><i>Engagement Lead: Megan Doner</i></p> | <ul style="list-style-type: none">• A public SAC meeting was held on October 16. A recording of the meeting has been posted on the website. |
| <p><u>Technical Panel (TP)</u></p> <p>The Technical Panel's mandate is to review amendments to the Market Rules for Ontario's electricity market and provide recommendations to the IESO Board of Directors.</p> <p><i>Engagement Lead: Trisha Hickson</i></p> | <ul style="list-style-type: none">• A Technical Panel meeting was held on March 3. Meeting materials are posted on the website.• The next Technical Panel meeting is scheduled for April 14. |
