Regional Electricity Planning in the Niagara Area – September 15, 2026

Feedback Provided by:

Name: Brian Treble

Title: Director of Development Services

Organization: City of Thorold

Email: [REDACTED]

Date: September 29, 2026

To promote transparency, feedback submitted will be posted on the Niagara [engagement webpage](#) unless otherwise requested by the sender.

The Independent Electricity System Operator (IESO) is seeking feedback on the scoping assessment report. A copy of the report and a recording of the webinar can be accessed from the [engagement webpage](#).

Please submit feedback to engagement@ieso.ca by October 5, 2026.

Topic	Feedback
What additional information should be considered as part of the Scoping Assessment?	The City of Thorold is currently working on an update to the 2022 growth strategy allocations as provided by the Region. By the end of Q4, 2026 or perhaps Q1, 2027 we will have new target growth numbers which we can share if helpful.

Topic	Feedback
What additional considerations, informed by local developments, should be taken into account for the areas identified as requiring further analysis?	We will be experiencing growth of infill within the City of Thorold proper and development on greenfield lands in the Port Robinson West area and Rolling Meadows, which will increase pressures for servicing as we grow.
What other areas or specific considerations should be examined through regional planning?	The Region provides sewer, water and storm sewer allocations and capacity to each lower tier municipality so their servicing planning (which is starting with a kick off meeting on September 29th) will be important to follow as well, as servicing will affect our ability to grow.
