Subject: Electricity Planning in Niagara Region – Webinar on April 28

The IESO will host a second public webinar on April 28 at 11:00 a.m. to provide an update on the development of an electricity plan – Integrated Regional Resource Plan (IRRP) – for Niagara Region. During this session, detailed electricity needs will be outlined and input will be sought on the screening of high-level potential options. Webinar materials will be available in advance and written feedback will be collected until May 19. [Register](#) to participate.

The [first public webinar](#) held on February 3 sought input on key local developments, projects, and initiatives to help inform the electricity demand forecast that determines how much electricity is needed in Niagara Region over the long-term. For additional details on this engagement initiative, presentation materials, recorded meetings, feedback received, and IESO responses, please visit the Niagara Region electricity planning engagement [webpage](#).

Thank you,
