Email: [REDACTED]

Date: April 15 2021

Following the March 23, 2021 Transmission Rights Market Review (TRMR) engagement webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the following items discussed during the webinar. Background information related to these feedback requests can be found in the presentation, which can be accessed from the [engagement web page](#).

**Please submit feedback to [engagement@ieso.ca](mailto:engagement@ieso.ca) by April 15, 2021.** If you wish to provide confidential feedback, please submit as a separate document, marked “Confidential”. Otherwise, to promote transparency, feedback that is not marked “Confidential” will be posted on the engagement webpage.

## Final Report

Topic	Feedback
Is there anything else the IESO should consider including when finalizing the TR Market Review Final Report?	<p data-bbox="732 226 1505 457">Evolugen generally supports Bruce Power's submission with reference to how Net Interchange Schedule Limit's ("NISL") incorporation post Market Renewal should be further studied. In particular, please comment on how the IESO's proposed design satisfies Market Surveillance Panel's 2015 recommendation on NISL.</p> <p data-bbox="732 506 1487 737">Also, please address whether the IESO agrees that if NISL funds were included in Transmission Rights payouts to rights-holders, then market participants would hedge against this risk by increasing their offers proportionally, which would increase market competition and confidence, and ultimately improve system reliability.</p>
