

From: [IESO Community Engagement](#)
Subject: Webinar | Niagara Bulk Plan
Date: June 30, 2026 10:05:38 AM

You are invited to register for a webinar on **Wednesday, July 15 from 1:00 p.m. to 2:00 p.m.** to learn more about a new electricity planning initiative that is underway for the Niagara Region and surrounding areas. To address economic development and examine emerging electricity needs in the region, the IESO will engage during the development of the [Niagara Bulk Plan](#) to understand the growing electricity demand and assess whether the high-voltage transmission system can maintain reliability. The purpose of this webinar is to provide an overview of the Niagara Bulk Plan and solicit feedback on the proposed scope of work.

Connecting the IESO's work to communities and stakeholders is a critical component to the development of a bulk electricity plan. The IESO encourages broad participation in the process, including but not limited to Indigenous communities, market participants, municipalities, customers, and the public.

[Register to participate](#). Materials will be shared in advance of the webinar and written comments will be welcomed until Wednesday, August. 5.

Visit the [Niagara Bulk Plan engagement webpage](#) or the [Bulk Planning Overview](#) webpage to learn more.

Kind regards,
Jessica Singh
IESO Regional and Community Engagement
