## Capacity Auction Enhancements – May 28, 2026

### Feedback Provided by:

Name: Chinedu Okeke

Title: Manager, Energy Markets

Organization: Rodan Energy Solutions Inc.

Email: [REDACTED]

Date: June 10, 2026

Following the May 28, 2026 Capacity Auction Enhancements webinar, the Independent Electricity System Operator (IESO) is seeking feedback from stakeholders on the items discussed.

The referenced presentation and supporting materials can be found under the May 28, 2026, entry on the [Capacity Auction Enhancements](#) webpage.

To promote transparency, feedback submitted will be posted on the Capacity Auction Enhancements page unless otherwise requested by the sender. If you wish to provide confidential feedback, please mark “Yes” below:

- Yes – there is confidential information, do not post
- No – comfortable to publish to the IESO web page

**Please provide feedback by June 11, 2026, to [engagement@ieso.ca](mailto:engagement@ieso.ca).** Please use subject: *Feedback: Capacity Auction Enhancements.*

# Proposed Amendments to Market Rules and Market Manuals

Topic	Feedback
Do the proposed amendments to the market rules and market manuals accurately reflect the design of the 2026 Administrative Enhancements?	Rodan confirms that the proposed Market Rule and Market Manual amendments presented on May 28, 2026 reflect the design changes discussed and agreed at the March 31, 2026 engagement.

## General Comments/Feedback

Rodan appreciates the IESO’s progress on the Capacity Auction Enhancements program and its responsiveness in turning the March 2026 engagement discussions into draft Market Rule and Market Manual amendments on an accelerated timeline. Codifying Emergency Activation Payment eligibility in MM5.5 is a meaningful step that provides aggregators with greater regulatory certainty. Rodan also welcomes the HDR Standby Trigger Price review. Although the 2022 methodology did not change the \$200/MWh threshold, we agree that maintaining the current trigger may continue to reduce the operational value of standby notices and supports exploring alternative methodologies.
