

Closeout of Market Rule Amendments: Chapter 3

The Market Assessment and Compliance Division (MACD) of the IESO greatly appreciates the input from all stakeholders who participated in the Market Rule Amendments: Chapter 3 “Administration, Supervision and Enforcement” engagement. In direct response to stakeholder feedback, the decision has been made to formally close this engagement in favour of launching a new engagement with a broader scope. Looking ahead, the IESO is launching the [Enforcement Modernization](#) engagement in the fall of 2025.
