**Subject:** Energy Payments for Economic Activation of DR Resources Engagement Concluded

At the last Energy Payments for Economic Activation of DR Resources engagement webinar on August 26, the IESO proposed to conclude the engagement and adjourn the discussion regarding shut-down costs until a time when post-MRP projects are under consideration for implementation. The IESO is now proceeding with this proposal with the posting of the Final Engagement Summary Report on the engagement webpage. The Report includes a summary of discussions and engagement activities that took place through this engagement forum as well as a clarification requested by stakeholders on the two-part bid cost recovery mechanism that was discussed earlier this year. The report and other engagement materials can continue to be accessed by the public through the [Completed Engagements](#) section of the IESO website.

We understand that this has been a long journey for stakeholders and appreciate your participation throughout this engagement. Please reach out to [engagement@ieso.ca](mailto:engagement@ieso.ca) if you have any outstanding questions.

Thank you,

Dale Fitzgerald
