Subject: Feedback - Gas Phase-Out Impact Assessment

To Independent Electricity Systems Operator,

Your government is living in the past. We need you to take bold action and move us into the new technologies that will create the jobs of the future. Please don't waste tax payers money continuing to invest in old technologies. Fossil fuel is going to decline more and more with time. Nuclear power plants create extremely hazardous waste that is impossible to get rid of. Let's simplify our lives and our kids lives by spending money intelligently. Think long term.

Yours truly,

Carol Pryce
