

Feedback Form

Hybrid Integration Project – December 16, 2021

Feedback Provided by:

Name: Emma Coyle

Title: Director, Regulatory & Environmental Policy

Organization: Capital Power Corporation (“Capital Power”)

Email: [REDACTED]

Date: January 10, 2022

Following the December 16, 2021 webinar on the Hybrid Integration Project, the IESO is seeking feedback from participants on the market design work, as well as procurement considerations. The IESO will work to consider feedback and incorporate comments as appropriate and post responses on the engagement webpage.

The referenced presentation can be found under the December 16, 2021 entry on the [Hybrid Integration Project webpage](#).

Please provide feedback by January 10, 2022 to engagement@ieso.ca. Please use subject: *Feedback: Hybrid Integration Project*. To promote transparency, this feedback, if provided in an AODA-compliant format (e.g. using this form) will be posted on the [Hybrid Integration Project webpage](#) unless otherwise requested by the sender.

Thank you for your time.

Market design work

Topic	Feedback
Does the content presented in the December 16 meeting reflect your understanding of the market design work required for the foundational models?	Yes.
Are there any elements to the market design work missing?	At this time the presentations appear to cover key elements of market design work required for hybrid integration.
Please indicate if you would like to set up a one-on-one call with the IESO team to discuss specific concerns with the Market Design work.	Yes, potentially. At this time we are not requesting a meeting with respect to this particular engagement.

Procurement considerations

Topic	Feedback
What are stakeholders thoughts with regards to the procurement considerations for the foundational participation models?	<p>Capital Power supports efforts to complete detailed design work necessary for the full consideration of hybrid projects in the LTRFP but notes the aggressive timelines may challenge best efforts from both the IESO and stakeholders.</p> <p>Capital Power encourages the IESO to remain open to considering issues that impact the design of commercial arrangements, and the eligibility of existing contracted facilities to utilize either foundational model when submitting qualifications and bids as part of the LTRFP process.</p>

General Comments/Feedback

No additional comments at this time. Capital Power looks forward to participating in both the Hybrid Integration Project and LTRFP engagements.
