Following the Long-Term RFP Community Engagement Municipal Breakout Discussion webinar held on April 12, 2022, the Independent Electricity System Operator (IESO) is seeking feedback as outlined during the presentation. A copy of the presentation as well as a recording of the session that includes an overview of the feedback request, can be accessed from the engagement webpage.

Please submit feedback to engagement@ieso.ca **by May 10, 2022**.

Topic	Feedback
What questions do you have related to Ontario's emerging electricity needs? What more do you need to know about the procurement process?	Concerns with what type of energy production is going to be promoted and where they will be placed. Wind is classed as sustainable but is not reliable. I would like to see programs that promote solar and ground source on new build residential homes.
How can the IESO support municipalities to ensure timelines associated with the procurement process are achieved?	Constant communication as to what projects are being considered in each municipality.

Connecting Today.
Powering Tomorrow.

Topic	Feedback
What information will municipalities need to support: • external inquiries (e.g. from potential proponents) • internal decision making processes (e.g. permitting) What is the best way to deliver this information?	What zoning changes will be needed. Where do industrial lands need to be situated to facilitate new projects and what is the impact they will have on neighbouring lands.
What are some of the barriers/opportunities that proponents may encounter in gaining municipal support? What are some strategies to foster the opportunities and/or reduce barriers?	Zoning requirements, neighbours, road infrastructure and who is going to build or maintain it.
