Energy Webinar for Indigenous Communities Feedback Form – January 17, 2024

Feedback Provided by:

Name: Harri Makivirta

Title: Energy Manager, HVAC & Energy Technologist, ASHRAE Certified BEAP, HBDP

Organization: Temagami First Nation

Email: [Click or tap here to enter text.](#)

Date: Feb 7th, 2024

To promote transparency, feedback submitted will be posted on this [engagement webpage](#) unless otherwise requested by the sender.

Following the Energy Webinar for Communities held on January 17, 2024, the Independent Electricity System Operator (IESO) is seeking feedback. A copy of the presentations as well as recordings of the sessions can be accessed from the [engagement web page](#).

Please submit feedback to indigenousrelations@ieso.ca by February 7, 2024.

Transmitter Selection Framework

Topic	Feedback
How best can the IESO keep you informed of the TSF development work, and solicit your input on matters relevant to your community's interests?	Email
Are you interested in participating in the focused engagement sessions and/or 1:1 meetings with the IESO to share your community's feedback and perspectives?	Yes
For future transmission projects, how should the IESO think about valuing Indigenous participation? Which Indigenous participation models (e.g., equity partnership, training and employment, capacity funding, etc.) have you seen or experienced as effective for other projects, and why?	Equity Partnerships and/or First Nations full ownership as a developer, plant operator, and funding the project. And hire third party designers, contractors, experts, and consultants to build the system/plant.
What do you believe has worked well and what hasn't worked well regarding your experience working with transmitters and/or partnering on electricity projects in Ontario?	Well – Having the opportunity to Partner for transmitter projects and/or Electricity Project. Hasn't worked well – LT2 should not be limited to Indigenous partnership only, should also be open to 100% ownership of power project and transmission projects.

Long-Term 2 Request for Proposals

Topic	Feedback
What factors should the IESO consider to make it easier for Indigenous communities to be involved?	Allowing First Nations to be the lead and submit an RFP (FN with no experience) as the developer/owner and bring in secondary partners with experience as hired subcontractors, consultants, engineering firms etc.
What else should be considered as part of the rated criteria with regards to	Click or tap here to enter text.

Topic	Feedback
increasing and bolstering Indigenous participation?	
How can the IESO better support Indigenous communities to make decisions about proposed projects?	Offer Energy Project terminology 101 course/workshops, for capacity building and understanding the whole process including the lingo and understanding the acronyms. Few FN's have experts and engineers but are willing to learn!
