How can the IESO streamline relevant processes (i.e., community engagement, municipal support) to the benefit of Proponents and municipalities?	Click or tap here to enter text.
Based on your experience in past IESO procurements, what feedback can you provide with respect to Municipal Support Resolutions, including around the removal of municipal rated criteria points?	The Council of the Township of Addington Highlands resolved to provide feedback regarding MSR's and ask that MSR's be required prior to submission of the RFP and not given rated criteria points.
What are some key considerations around the treatment of proposed projects in prime agricultural areas?	Click or tap here to enter text.
How can the IESO better support municipalities to make decisions about proposed projects?	The Council of the Township of Addington Highlands resolved to provide feedback regarding how IESO can better support municipalities and request that IESO attend a Council meeting (electronically if preferred) and provide an opportunity for Council to ask questions.

## General Comments/Feedback

The Township of Addington Highlands Council is familiar with prior long term procurements involving industrial wind turbines and resolved at their Council meeting held February 6th to provide feedback regarding Municipal Support Resolutions. Council would like to have rated criteria for MSR's removed and make MSR's a requirement of the proponent prior to submission of RFP.

Council would also be interested in having a representative from the IESO attend a Council meeting either in person or electronically in order to obtain a greater understanding of the procurement process and determine what a municipality can control and what they cannot control in the design and location of Industrial Wind Turbines as well as what proponents are permitted offer.
